Choose Your Own Adventure with Google Forms

Who doesn't remember the Choose Your Own Adventure stories they read as a kid? "If you want to go through the red door, flip to page 28. If you choose the blue door, flip to page 42". Now Google Forms make it easy to create these stories online. Come and see how 13 year olds have imagined an altered course of history through the adventures of Hernan Cortes and the Aztecs. See how easy it would be for you to implement these types of stories in your own classroom.

Exemplars

[Student 1 - Grade 8](#)

[Student 2 - Grade 8](#)

Can also be used to create Dichotomous Keys

[Dichotomous Sample](#)

The Assignment

- Show students a [sample story](#)
- Students must collect information on the subject ([outline](#))
- Give students some direction ([planning guidelines](#))
- Help students get organized ([flowchart](#))
- Students create their story in a Google Form ([video tutorial](#))
